PRINCE2 Methodology

PRINCE2® (PRojects IN Controlled Environments) is the standard method for project management worldwide, and is widely recognised and used.

PRINCE2® certification provides you with the skills and confidence to successfully manage projects.

PRINCE2® Foundation certification provides an introduction to PRINCE2® and a platform to move on to the PRINCE2® Practitioner level.

This PRINCE2® qualification validates your understanding of PRINCE2® principles and terminology, and enables you to participate in project management teams using the PRINCE2® methodology.

Benefits of PRINCE2®

PRINCE2® provides organisations with a standard approach to the management of projects. The method embodies proven and established best practice. It is generic, non-proprietary and widely recognised. As well as helping the managers and directors of a project, PRINCE2® also offers benefits to the organisation as a whole.

PRINCE2® enables projects to have:

- A controlled and organised start, middle and end;
- Appropriate reviews of progress against plan and against the business case;
- Flexible decision points;
- Automatic management control of any deviations from the plan;
- The involvement of management and stakeholders at the right time and place during the project;
- The necessary controls and breakpoints to work successfully within any required contractual framework;
- A common language across all the interested parties thereby ensuring effective communication
- Channels between the project team, project management and the rest of the organisation.

Fact:

Qualified project managers earn more and get promoted faster, than unqualified project managers.

The Morgan McKinley 2013 Australian Salary Survey says project managers earn \$110-170K, with senior PM's earning \$160-250K.

Fact:

Since its introduction, PRINCE has become widely used in both public & private sectors.

It is the UK's de facto standard for project management. There are more PRINCE2 trained professionals than in any other project management methodology.
