Project Management Online Dual Qualification Pathway Program (Certificate IV + Diploma)

CAL's 2015 Dual Project Management Qualification has been designed specifically for mature workers who have spent at least 5 years in the workplace. Not only does this accelerated pathway program provide you with entry pre-requisites and then direct entry into the Diploma program, it will also provide you with all the skills, tools and techniques you need to be able to effectively manage projects immediately upon completion, with no need to work up to the 'PM job' or to gain experience on the job in a lesser role while you do.

This unique program introduces students to the 'hands on' and 'how to' practical part of the program through the Certificate IV program. Once students learn the processes and how to use all the tools & techniques they move into the Diploma part of the program where they learn the 'why' that is the theory of PM, how the processes integrate across the lifecycle and the skills associated with taking on the *management* of the project.

The program comprises the following nationally accredited units:

How Does It Work?

This program is supported by online learning containing specific tutorials that address the course content as well as a range of 'how to' tutorials that actually give you the hands on skills that can take project staff years to gain. So, as well as learning the PM methodology (with a PMBOK focus) you'll also practice those important & necessary 'how to' skills, for example you'll learn how to put together a Gantt Chart, calculate resource loadings, complete a risk assessment or calculate the ROI.

Our online program gives students a complete overview of project management while showing you how to do it and provides you with further, more detailed explanations.
