## COURSE STRUCTURE

### How is the course delivered?

The course is 100% online and self-paced, so you can study on your own terms. Make your way through the units with clear tutorials, supporting content downloads, as well as regular checkpoints to test and strengthen your learning along the way.

### What are the assessments?

There are no exams for the course. All assessments involve practical and job-ready applications based on your workplace or the case studies we provide. There are different assessment elements, including interactive simulation and role play activities. These activities are conducted with a Learning Coach and may need to be completed with others (e.g. coworkers, friends or family) in real-time through Zoom or in a pre-recorded video. Depending on the time you commit and your learning style, studying part-time you could see you complete the course in approximately 16 months. You'll have the freedom to study when it suits you with our generous 24-month enrolment period.

### When can I start?

We have no restrictive intake periods, so you can start as soon as we've processed your course registration and official enrolment form. This is typically done in as little as two business days. We also have options to start your payment plan while delaying your course commencement date until you're ready to begin studying within three months.

## COURSE UPDATE NOTICE

The entire BSB training package has undergone a review and overhaul from PWC and AISC, and the new TLI50219/BSB50420 were announced in late October. While there will be changes to TLI50219/BSB51918 - including updated, different and additional units - they have a teach-out period and can still be *delivered and completed in their current form until late April, 2022*. While this may be enough time to complete your studies with the current version of the qualification, we've already started planning potential options and pathways to transition into the newer version once it's available on our scope, and we will keep all of our students updated, supporting them through the entire process. We want to make sure that our students get the best possible outcomes from these updates, and we work hard to minimise any adverse effects if you want or need to transition to the new version of the qualification.

You can find more information here: Training.gov (<https://training.gov.au/Training/Details/BSB>), PWC (<https://www.skillsforaustralia.com/industries/business-services/>)

Every RTO will need to address and action this same set of updates, but not all RTOs will be able to deliver transparent communications, robust processes or flexible options to their students. We would urge you to make decisions based on our current offering with the forward knowledge that they are subject to change, and ensure you're doing your due diligence when evaluating providers and how they will inform and support you through this process. Please contact your Learning Consultant to learn more and discover our unique approach to support.
