Recognition

Where is this qualification recognised?

They are Nationally Recognised and internationally respected qualifications, issued on behalf of the Australian Government.

Course structure

How is the course delivered?

The course is 100% online and self-paced, so you can study on your own terms. Make your way through the units with clear tutorials, supporting content downloads, as well as regular checkpoints to test and strengthen your learning along the way. You'll complete a combination of quizzes, written activities, and practical assessment tasks to demonstrate your skills.

What are the assessments?

There are no exams for the course. All assessments involve practical and job-ready applications based on your workplace or provided case studies which supersede the workplace requirements. There are different assessment elements, including interactive simulation and role play activities. These activities are conducted with a learning coach and may need to be completed with others (e.g. coworkers, friends or family) in real-time through Zoom or in a pre-recorded video.

Video assessments allow us to assess your interpersonal skills needed for management roles. This is an innovative method to engage with your learning by acting out crucial situations you would encounter in the workplace, in a safe environment with an industry expert. You'll be able to hone your new skills in real-time with your learning coach and get valuable feedback so you can confidently demonstrate your learning in the workplace.

How is the course delivered?

Our courses are completely self-paced, meaning you can study around your lifestyle. No strict deadlines, no inflexible classes to work around, no pressure to work to someone else's schedule. Depending on the time you commit and your learning style, studying part-time could see you complete the course in approximately 18 months. You'll have the freedom to study when it suits you with our generous 24-month enrolment period.

FAQs

Course duration flexibility

When can I start?

We have no restrictive intake periods, so you can start as soon as we've processed your course registration and official enrolment form. This is typically done in as little as two business days. We also have options to start your payment plan while delaying your course commencement date until you're ready to begin studying within three months.

What if I fall behind?

Our courses are completely self-paced, so you don't need to keep up with a class or work to strict deadlines. As a CAL student, you'll receive an individual learning plan that is tailored to your study needs, this helps create structure and set guidelines to help you stay on track to complete your studies. We cater to adult learners and understand that life can sometimes get in the way, so if you find yourself falling behind, you can speak to our student support who will be able to advise you of all your options, revisit your learning plan, and help you get your study back on track.
